Ranger Investment Management, L.P. ("Ranger") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. Ranger has been independently verified by Ashland Partners and Company for the periods October 23, 2002 through September 30, 2016 and by ACA Performance Services, LLC for the periods October 1, 2016 through September 30, 2017.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Ranger Micro Cap Composite has been examined for the period from August 1, 2014 through September 30, 2017. The verification and performance examination reports are available upon request.

Notes:

- Ranger is an investment adviser registered with the United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The Ranger Micro Cap Composite (the "Composite") includes all fully discretionary, fee paying accounts, which invests, on a long basis only, in micro capitalization, growth-oriented equity securities traded on U.S. exchanges. The Composite creation date is August 1, 2014. A complete list and description of composites are available upon request.
- For comparison purposes, the Composite is measured against the Russell Microcap Growth Index (the "Index"), a widely recognized index which seeks to capture the performance of the microcap growth segment of the U.S. equity universe. Unlike the Index, Composite portfolios are actively managed and invest in a relatively focused group of holdings. Accordingly, comparing or contrasting Composite results or characteristics with those of the Index may be of limited use. Performance results of the Index include the reinvestment of dividends and income.
- Composite returns are presented gross and net of management fees and include the reinvestment of all dividends and income. Net of fee performance results presented above were calculated using the highest management fee equal to an annual rate of one percent (1.0%) of the capital account balance. The current fee schedule for the composite is one percent (1.00%) for the first \$25mm in AUM; Eighty basis points (0.80%) for the next \$25mm in AUM; Seventy basis points (0.70%) between \$50-100mm in AUM; and AUM Over \$100mm is negotiable. Investment advisory fees incurred by clients may vary. Valuations are computed and performance is reported in U.S. dollars. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- Composite Dispersion is calculated using the asset-weighted standard deviation of all portfolios that were included in the Composite for the entire calendar year.
- Total Micro Cap ("MICCG") Assets include the Composite's assets as well as other micro cap assets managed by Ranger. ACA Compliance Group as not reviewed the Total MICCG Assets or percentage of MICCG Assets in the performance table above.
- The Composite is re-valued and accounted for following a ten percent (10%) or greater cash, securities or asset class inflows or outflows at the account or composite level so as not to distort performance.
- Performance periods of less than 12 months are not annualized. Year 2014 results are for the periods from August 1, 2014 through December 31, 2014.
- Ranger makes no representation, and it should not be assumed, that future investment performance will conform to past performance. Additionally, there is the possibility for loss when investing in a Composite separate account or pooled investment vehicle. Gross performance returns presented herein will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. The collection of fees produces a compounding effect on the total rate of return net of management fees. As an example, the effect of investment management fees on the total value of a client's portfolio assuming (a) quarterly fee assessment, (b) \$1,000,000 investment, (c) portfolio return of 8% a year, and (d) 1.00% annual investment advisory fee would be \$10,416 in the first year, and cumulative effects of \$59,816 over five years and \$143,430 over ten years. Actual performance results and fees of client accounts may differ substantially.
